LaCie

LaCinema Rugged
Multimedia Hard Disk | Hi-Speed USB 2.0

Your Media, Anywhere You Need It

Design by Neil Poulton

HDMI | **compatible with WINDOWS®** | **compatible with MAC OS®** | **USB 2.0**

Play Your Media on Any TV

With the new LaCinema Rugged, you'll be able to access and enjoy your files on any television. You can watch television shows and movies, listen to music, and create photo slideshows to share with your friends and family. Created for LaCie by world-famous industrial designer Neil Poulton, the LaCinema Rugged goes beyond ordinary multimedia hard disks with its sophisticated all-terrain design.

Compatible with HDTV

The LaCinema Rugged features HDMI upscaling, allowing you to watch movies and television programs on your HD TV, or even enjoy your photos in full HD resolution. The LaCinema Rugged allows you to choose from MPEG-1, MPEG-2 (AVI, VOB, IFO, ISO) and MPEG-4 (AVI, XviD) video formats, ensuring easy playback.

Rugged and Mobile

You're free to take your media with you with the LaCinema Rugged; its unique varnished, scratch-protected aluminum shell and shock-resistant rubber sleeve make it especially resistant to harsh elements for extra protection wherever you go. You can be confident that your important digital media will be protected and secure with the LaCinema Rugged.

Easy to Use

With a smart and simple user interface, as well as a convenient remote control, the LaCinema Rugged is both practical and user-friendly. By connecting it to your computer via USB, you can store your multimedia files, then access them later through any television. Its 500GB capacity is large enough to hold most media libraries.

500GB*=
700 movies or
125,000 songs or
500,000 photos**

- Connect to HDTV via HDMI
- User-friendly interface and remote control
